Effortless Kitchen Luxury with Designer Quartz

SHELLY'S TIPS Flex Your Quartz Style

Full Height Quartz Backsplash

Extending countertops into the back splash is a top design trend for 2020's. This seamless look is easy to maintain and creates a harmonious look in kitchens.

Waterfall Edge

Slab edge that extends over the side and down to the floor. Sleek, modern lines give the appearance of being wrapped on both ends. This solid surface is easy to clean.

Mitered Edge

Thick. Luxurious. Expensive Looking. A mitered edge uses two pieces of stone cut at 45 degree angles and put together with the seam at the corner to give the seamless appearance of a "thick" countertop.
